## 5-Day Forecast

Day	High/Low (°C)	POP (%)	Icon	Details
Mon, Nov 17	28 / 24	100%	N/A	
Tue, Nov 18	27 / 24	100%	N/A	
Wed, Nov 19	27 / 24	100%	N/A	
Thu, Nov 20	28 / 23	100%	N/A	
Fri, Nov 21	27 / 24	95%	N/A	

## Holistic Recommendations

- \* While current weather conditions are calm with no heat risk, the overall safety risk level has been raised to MODERATE. Remain vigilant and aware of your surroundings when outdoors.
- \* Air quality is excellent (AQI 3), making it a great time for outdoor activities. However, due to conflicting analyses, individuals with high sensitivity should monitor for any personal symptoms as a general precaution.
- \* Stay informed about the unspecified increase in risk by enabling emergency alerts on your mobile device and monitoring official local news and safety channels for any updates.
